AGAINST STANDARD

Attorney General Hadley Tells of Monopoly of the Oil Business in Missouri.

HOPES TO SUCCEED IN SUIT.

Three Companies, Which He Says Arc Controlled by One Interest. Are infringing on State's Antitrust Law.

REPUBLIC SPECIAL

Kansas City, Mo., March 19 .- Herbert S. Hadley, Attorney General of Missouri talked to-night of the suit instituted against the Standard Oil Company and its subsidiary companies in Jefferson City

Justice Marshall of the Supreme Court. response to the petition filed by Mr. Hadley, has cited the Standard Oil Company, the Waters Pierce Oil Company and the Republic Oil Company to appear in the Supreme Court on March 22 to show cause why an investigation should not be begun and proceedings brought to oust them from the State. "About two menths ago," sald Mr. Had-

ley, "my attention was called to the fact that the three companies named control % per cent of the ell trade in Missouri so per cent of the ell trade in Missouri, and that the Standard Oil Company controls two other companies named, in violation of the antitrust law of the State. "I have evidence to show that the Waters Fierce Company is controlled be the Stancard Oil Company, and that the State has been divided between the two complines, either one of the companies not selling oil in the territory covered by the other companies.

APPARENTLY INDEPENDENT. There is evidence to show that while the Republic Oil Company is apparently an independent company it is used to sup-

GROUND WORK FOR INQUIRY. Mr. Hadiey, while assisting a joint leg-islative committee to investigate freight terminal charges and freight rates, made Mayor George D. Locke returned yesterday from Chicago.

Mr. and Mrs. John Frazier departed yesterday for Peorla. Ill., to take up their restable.

Mrs. Edward White of St. Louis was the guest of relatives yesterday.

Charles Warren of Litchfield, Ill., was a visited.

Mrs. George Smith went to Pawnee, Ill., yesterday.

Mrs. Charles W. Du Hadway entertained Miss Tillie Schattgen of Carrollton, Ill., yesterday.

Mrs. Charles W. Du Hadway entertained Miss Tillie Schattgen of Carrollton, Ill., yesterday.

Should Mr. Hadley succeed in his pursue and freight rates, made inquiry into the Standard Oil methods. In the bearing at the Hotel Builtimore last month Mr. Hadley examined the agent of the Standard Oil distributing station in Kansus City. Here was laid the ground work for the estimony which Mr. Hadley refused to discuss the suit against the Standard Oil Company.

While Mr. Hadley refused to discuss the subject at that time, it was predicted that he would institute proceedings against the Standard Oil Company.

Should Mr. Hadley succeed in his pursue and keight pair about comparition in the processing that the Hotel Builtimore last month Mr. Hadley examined the ground work for the Standard Oil distributing station in Kansus City. Here was laid the ground work for the Standard Oil distributing station in Kansus City. Here was laid the ground work for the Standard Oil distributing station in Kansus City. Here was laid the ground work for the Standard Oil Company.

Should Mr. Hadley succeed in his pur-pose and bring about competition in the sale of oil in Missouri, he will accomplish a signal benefit to the oil producers in Kansas in affording them market for their

JOPLIN ZINC PRODUCERS Southside Hooster Mining Co. W. W. P. Chemen' Lareombe & McElroy M. & F. Mining Co. New York Zine Co. M. H. Beckwith & Co. Palmetro Zine Co. MAY REVISE SCHEDULES

Stendily Declining Prices Make Ac tion Secreenry-European Ratio One Per Cent Higher.

REPUBLIC SPECIAL. Joplin, Mo., March 19 .- The zinc-ore pro ducers of the district have accepted a steadily decilning market price for their ore for several weeks, until it has been reduced \$10 per ton. At the close of January zinc ore sold as

high as \$60 per ton. The highest price the last week was \$6 per ton, and the assay basts price was \$43 to \$46 per ton of 60 per cent zinc. It is now rumored that the producers will try concerted action against further reductions in the price. In 1809 the Missouri and Kansas Zine Miners' Association adopted a schedule of prices for zinc ore based on seven times the spelter market was in cents per 100

as much in dollars per ton for ore as the spelter market was in cents per 160 pounds in St. Louis. In 1896 there was a revised schedule issued, the latter approved by several of the smelters.

The association schedule puts the price at 43 per ton of 60 per cent zinc with a St. Louis spelter market of 36 l5 per 189 pounds. The latter schedule differed very little, placing 60 per cent zinc at 42.35 per ton on the same spelter market.

Producers, baving since earned that the ratio in Europe is practically equivalent to eight times as much for the ore in tons as the spelter is per 169 pounds, are expressing themselves as dissatisfied with the centinued reductions in the price of ore, and it is probable that some action will be taken to prevent at least further declining prices. If necessary, the output can be restricted 40 per cent.

As the smelters were short of ore during the cold, hard winter that tiel up operations in this district, and none of them have now a large stock on hand, it would seem that they have pursued a near-sighted policy in reducing prices to a point that may again curtail the output. It would seem that they have pursued a near-sighted policy in reducing prices to a point that may again curtail the output. It would seem that they have pursued a near-sighted policy in reducing prices to a point that may again curtail the output ting zinc ore at 59 to 52 per ton, it will be seen that it is necessary that some action be taken before prices are crowded down to the expense line.

Eclipse Mining Co.
O. K. Mining Co.
Edwinna Mining Co.

MISSOURIANS HELPING TO DEVELOP CANADA'S NORTHWEST TERRITORY

Colonel G. Clay Porter, Now in This City, Says Former Residents of This State Are Prominent in New Country-Many Supplies Are Purchased in St. Louis-Pike County Well Represented.

There are so many former Missourians in Northwest Canada that they have beome a real political factor in the affairs of the far North country," said Colonel G. Clay Porter of Calgary, N. W. T., last

Colonel Porter is in the city for a few days, at the Planters. He is the editor of the Daily Herald of Calgary, the metropolis of the Territories. Alluding to the part Missourians are playing in the tremendous development of the great Western section of British North America, Colonel Porter said: "There is no line of business in that vast

stretch of mountain and plain, from Winnipeg to the Rocky Mountains, a distance of more than 1,000 miles, in which former citizens of Missouri are not leading factors. Colonel Frank McGuigan, until a few years ago superintendent of the Wabash at Chillicothe, now manager of the Grand Trunk, has been selected to build the second transcontinental railway of the Dominion-the Grand Trunk Pacific.

"He will have charge of the construction of 2.000 miles of read, and men from this State will in no small degree contribut to the various departments. Judge William Higgs, for twelve years on the Missouri Supreme bench, is one of the creat land owners of Alberta Territory, controlling many fertile acres near Red Deer, Alberta. "In the same locality Captain Harry

Knight and Corte Frye of Louisiana, Mo., have fine stock ranches and are rapidly cquiring a fortune. In Saskatchewan, near Prince Albert, the leading mercantile house is that of R. C. Richards, formerly of Joylin, and near Medicine Hat one of the breeders of the best horses supplied the army of Great Britain 's Tobe' C. C. Johnston, formerly connected with the Gentry farm at Sedalia.

"At Red Deer there is a Pike County colony, and all over that section of the great Northwest these ex-Missourians are flourishing. In a great many cases the Americans become British subjects, but not any of those mentioned. Still they all make fine citizens, whether they cherish the land of their adoption or nativity and are valued as alert business men of that part of King Edward's domains.

MARKET FOR ST. LOUIS. "Last year some 200,000 Americans went into Western Canada, and this year the stream moving northward prom even heavier. The cheap land and the ease with which fine farming and grazing land is 'homesteaded' there makes it a destrable proposition. Any man who will make an acceptable citizen of old Mis-souri is appreciated in that section of the British Empire. It is my observation that these Americans are assimilated very

that these Americans are assimilated very rapidity.

"Some of them go in with the idea that annexation is very certain in the near future and is much desired by the natives, but before they have been there long they realize that the people are satisfied with their form of government and too busy to even talk about future possibilities. There is, however, a friendly feeling toward the United States, and vast quantities of manufactured products from the States are being consumed there.

"Western Canada is 2.00 miles from the manufacturing centers of Eastern Canada.

"Western Canada is 2.00 miles from the manufacturing centers of Eastern Canada; and the freight rates from Montreal are higher than from St. Louis. Many implement manufacturers of St. Louis are sending an immense volume of stock into Western Canada, and windmills, pumps, mining machinery and farm implements of every description with the brand of St. Louis firms on them are to be seen all over Alberta, Assiniboia, Saskatchewan and Maniteba. In this way the millions taken into that country by the "American army of invasion" comes back to the States with interest.

"St. Louis stover are to be found away up in the remote regions of the Lesser Slave Lake, and in return the people of this metrorolis receive the handsome furs that the Hudson Bay Company exports from that isolated section of the world."

SENDS ULTIMATUM TO EQUITABLE LIFE

Frank Platt Declares if Directors Don't Grant Immediate Mutualization War Will Follow. 💀

REPUBLIC SPECIAL New York, March 19.-Emphasis was hid upon the statement that the Policy Heblers' Protective Committee would continue its fight to bring about the immediate mutualization of the Equiable Life by Frank H. Platt to-day, when as counsel for the committee he declared that if the plan of the company's steelal committee to consume four years in making the change in the personnel of the Board of Directors were not reconsidered at Tuesday's meeting the work of the Policy Holders' Committee would be earried on with renewed vigor.

"The recent statement," said Mr. Platt. The recent statement, said Mr. Platt, "which was said to have come from a director belonging to the Hyde faction, that it would be dangerous to give to the polley holders the immediate control which is uttimately intended, confirms the suspicions of the Polley Holders' Committee, "Unless some way can be found of realizing the proposed mutualization movement, after four years, with all the nowexcept after four years, with alt the pos-sibilities of defeat through scheming and intricate, I am convinced the widespread movement among the pelley holders for the assertion of their rights will be car-ried on with renewes vigor. I further-more believe that nething can stop the demand for an investigation of the socie-ty except practical, prompt and unmis-tally except practical, the clear power give to the policy bolders the clear power as well as right to investigate and to in-stitute needed changes and reforms."

MRS. ELIZABETH ROWE DEAD.
